

ESCAPED FROM COUNTY JAIL

A Prisoner Saws out, but He Is Quickly Recaptured.

A jail break occurred yesterday afternoon at 1 o'clock, but the prisoner did not long enjoy his new-found freedom.

Levi Webber, the bird in question, is a negro, who has been in durance for some time on the charge of selling whisky to an Indian. He behaved himself pretty well and was given the freedom of the corridors. At the southwest corner of the jail is an angle shut off from observation in which is a bathtub.

Webber climbed up on the tub and went to work on a window bar with a saw he had obtained in some unknown manner. The bar had been partly sawed in two some time previous. When it was cut through he wrenched it aside, squeezed through the aperture, and was enjoying the sweets of liberty.

The negro is a big, burly fellow, but he managed to squeeze through an opening only 8 1/2 inches wide. An alarm was given and Chief of Police Brown and Deputy Sheriff Hayes struck his trail, which led up the river. The negro swam the stream to the island and hid in the willows. He was located and brought to shore in a boat.

Eastern Trout for the Truckee River.

The United States Fish Commission has notified Deputy Warden Morrill that he will shortly receive a consignment of eastern speckled brook trout eggs. They will be hatched here and planted in Hunter Creek and White Canyon and other streams as an experiment. They are a game fish and will give anglers great sport. They are considered far superior to the rainbow as a table fish.

SAVE AN EXAMINATION FEE

By going to the Frank Golden Jewelry Store and having your eyes examined free of charge by the only graduate optician in Nevada. Glasses fitted and adjusted in a scientific manner. Locality.

GIVEN PERMISSION TO TAKE SPAWN

Eggs will be Hatched and Swimming Fry Returned to the Truckee.

J. P. Morrill has been granted by the Board of Commissioners exclusive right to take spawn from the Truckee river in Washoe county for one year.

The consideration on which this permit was granted is that Mr. Morrill return to the river swimming fry equal to twenty per cent of the number of eggs taken.

Mr. Morrill will construct a hatchery on Hill creek, half a mile from the river in a mountain canyon. The reason that the hatchery formerly used by the California Fish Commission will not be used is on account of the impurities in the water from the paper mill.

The water in Hill creek is absolutely pure and will give a larger percentage of fry from the eggs taken.

The fry in excess of the twenty per cent returned to the river will be taken by the United States Fish Commission.

This is the first aid that these waters have received from the government in a piscatorial way, and may result in a United States station here within the next three years.

The spawn will be taken from the trout at the electric light dam as the parent fish are less exhausted at this point than they are after passing the numerous obstructions between here and the State line. Less injury will thus be done to the fish.

An Association Officer.

Saturday afternoon from 3 to 5 a reception will be tendered Miss Stafford, coast secretary of the Young Women's Christian Association, in the parlor of the Girl's Cottage.

Sunday afternoon Miss Stafford will address the Y. M. C. A. in Room 6, Morrill Hall. The ladies of Reno are invited to attend both the reception and the lecture.

Building a Fishway.

Fish Warden Merklinger and Deputy Morrill are putting in an up-to-date fish way at the Riverside Mill Company's dam. They have been working for two days and have the ladder half completed. It is eight feet wide and thirty-two feet long. The plan of the fish way is that of the improved Call system and is approved by the United States government.

Their New Domicile.

The Sigma Alphas have fitted up fraternity rooms in the Bank of Nevada building. They have excellent prospects for a frat house. One of the members says that it will be located midway between Lincoln Hall and the Girl's cottage, only a little nearer the cottage.

Eastern Visitors.

Among the easterners who registered at the Riverside yesterday were the following: Mr. and Mrs. B. A. Hamilton of Pawtucket, Rhode Island; L. E. Cochran, Boston, and J. C. Fitzhenry, Worcester, Massachusetts.

Sad Death of a Former Renoite.

The sad news was received in Reno yesterday afternoon of the death of Mrs. Emily Carr in Oakland, where she recently underwent two operations for tumor, which at first seemed to have been successful.

Mrs. Carr was aged about 30 years and was a native of Sweden, but she spent many years in this city where she has many warm friends.

The deceased is survived by her husband, two sisters, Mrs. Patterson and Mrs. E. A. Holman, and two brothers, Andrew and Emil Peterson.

The body will arrive from Oakland this morning and will be interred here from the home of Andrew Patterson. The date of the funeral will be announced later.

High Praise for Tonight's Play.

The play tonight promises to delight Reno theatre goers. There will be a large house, judging from the advance sale. The following write-up in the Virginia Chronicle evidences that the rendition is something worth seeing and hearing:

Manager Arthur C. Alston's company, presenting "At the Old Cross Roads," delighted a fair-sized audience at the Opera House last night.

The piece is true to life and the performers were selected especially for their various parts. The new play is a romantic Southern comedy-drama from the pen of the brilliant Hal. Reid.

From here the company goes to Carson and Reno, and the people of those towns are assured of a delightful performance.

The company is a most excellent one, and the star performer, Miss Estha Williams, who plays the part of "Parepa," she displays a talent for the depiction of suppressed passion that is something extraordinary. Another actor deserving of especial mention was Mr. Maurice Hedges, who played the part of the old Major as if born to it. If he is not a native of the sunny south, he ought to be. He is a young man who gives great promise of developing into a comedian of the first ability.

A Farewell Reception.

The members of Society Dania tendered a farewell reception Monday evening in Ritter hall to Mr. and Mrs. Charles Duborg, nee Frandsen, before their departure for their new home. John L. Considine, editor of the Virginia Chronicle, is a nice young man but he will never rise very high in the journalistic profession. He is seriously handicapped. He has a failing. He persists in telling the truth.

An example of his unprofessional methods was noticed in his paper last evening. A batch of items was headed "Stolen from the Reno Journal."

John may get his reward in Heaven, but not in Nevada. He's too blamed honest to compete with his fellow editors here.

Baby's Coming

McDonald, Ga., July 12, 1900.
I advise every suffering woman to take Wine
of Cardui. While I was going with my other
children I was compelled to stay in bed for days
at a time, but this time I have taken Wine of
Cardui and Theodor's Black-Draught and have
been able to do all my housework without any
trouble. I am expecting every day to be con-
fined. My husband thinks Wine of Cardui is
the best medicine in the world. He takes a
dose of Theodor's Black-Draught every night
and gives some to the children. He has not
lost a day from work this year. He tells his
friends about your wonderful medicine and I
tell my lady friends to use your Wine of
Cardui.
Mrs. GEORGIA LEB.

WINE OF CARDUI

There are thousands of women who shrink
in terror at the thought of the baby's coming.
But childbirth is one of the workings of Nature
and it was not intended to imply torture and
agony to the heroic mothers of the race. The
woman who suffers torture during pregnancy
and at childbirth has usually, by some indis-
cretion, injured the organs which make her a woman. Neglect of menstrual
irregularities leads to ovarian pain, falling of the womb and leucorrhoea,
and the period of pregnancy is necessarily distressing under those con-
ditions. Wine of Cardui will regulate the menstrual function perfectly and
eventually make the generative organs strong and healthy. Pregnancy and
childbirth have no terrors for the woman who takes this pure Wine. A strong
healthy womb will bring its precious burden to maturity with little or no
pain. A healthy woman need not fear childbirth. Wine of Cardui completely
cures all these troubles familiarly known as "female diseases" and equips the
sensitive generative organs for pregnancy and childbirth. It will save any
mother much pain and suffering. All druggists sell \$1.00 bottles.For advice and literature, address, giving symptoms, "The Ladies' Advisory
Department," The Chattanooga Medicine Company, Chattanooga, Tenn.

His Happy Home.

Shorty, the bootblack, the town pest, has been doing politics in Carson and Virginia for a number of months, but cold weather drove him back to Reno. He was here nearly a week before he succeeded in breaking into jail. But he is now a happy inmate of his old home and daily tolls blithely in the chaingang.

Building and Loan Talk No. 20.

One of the hardest nuts that solicitors have to crack is that of "procrastination."

Many people tell us: "Leave your literature, and we will read the same, think over the matter, and thereafter either write to you or let you know." Our reply usually is, "My dear friend, we have been canvassing not only for him but several other propositions for years, and you will pardon us for calling your attention to the fact that hundreds, if not thousands, of subjects have told us the same as you have today, that is, they would 'write or let us know,' but the gospel truth is, that we have, as yet, to see the color of the first one's hair that ever kept this promise."

To be plain, if one were to offer us a postage stamp for the prospect of doing business in the future, with these procrastinators, we would reply "for the Lord's sake, give us the postage stamp, for in every instance, we would be two cents ahead."

What is your idea about reading over that reading matter and thinking over the subject? Do you not know that the average person, if he thought over these matters for several weeks, would not know so much about them then as he or she does at the time that the proposition is intelligently presented to them. As a rule, the longer you think about a subject like this, the less you know about it, for when these matters are presented your full reason and intelligence it at play, whereas, if you put the question off, you will necessarily forget some of the proposition's most beautiful features. The writer has had people put him off, and returned, just to humor them, and received this answer—"We do not want to have anything to do with your proposition." Why? We would ask—"Because, if we fail to make our payments, we will lose all we have paid in," or "Because if we should need our money there is no way to get it out." These silly excuses will be and are given, notwithstanding the fact, that the representative may have expatiated long and fast on the idea that you could suspend your payments indefinitely. Notwithstanding the fact that we told them that the stock had a cash withdrawal value after one year, or that one could either transfer to some one else, or get a cash advance on their contracts after one year. You see, by "thinking over the matter," these smart people have forgotten some of the most excellent features that the "Phoenix" plan possesses. Very few people can interpret literature properly. Even the judges of the United States Supreme Court disagree. The Holy Bible is subject to as many different interpretations, as we have religious sects. A dishonest or ignorant minister might advise his congregation to "go hang themselves" because the Bible said that "Judas Iscariot went out and hung himself," and because the following words said "go thou and do likewise," for a preacher therefore, to advise his hearers to "go and hang themselves," would be wrong, very wrong. In other words, he would be arguing from a wrong premise to a wrong conclusion. He ought to have told them, that if they were individually guilty of the great crime that Judas committed, then it would be their duty to do as Judas did, hang themselves. Consequently, if all books are liable to wrong interpretation, why should not "Building and Loan literature" likewise be subject to wrong interpretation by the public? If one wants the unvarnished truth about a building and loan contract, read the contract itself. It will only take a very few minutes for you to do so, then you have it all, and if there is anything that you do not comprehend, ask the agent and he will set you right. If it, the contract, suits you, do business on the spot, do not put the matter off, for "now is the accepted time" "now is the day of salvation." The very first person that keeps his word after telling an agent that he

would "write and let him know," will be regarded as a great curiosity and we are almost prone to have that individual captured and put on exhibition in some San Francisco show window with the following placard attached to him, "Here is a Curiosity. Actually a man who kept his word with a solicitor after telling him that he would write and let him know." Putting business off means that your conduct is indifferent. The little skeleton in the closet gets larger and larger all the time. The little mole hill develops into a big mountain. You let your imagination get away with your reason, and say "no" when you should have said "yes." We dare say that many of these persons who procrastinate are honest, and have good intentions, but let us tell you that good intentions are not everything. Hell is supposed to be "paved with people with good intentions."

A day means a week, a week means a month, a month means a year, a year means "Never." If a thing is worth doing at all, it is worth doing promptly and well. If one were to wake up 365 days in the year and say "I am going to San Francisco" and never made a start, they would never get to Frisco, in the world; but on the contrary, if that same person woke up any particular morning and said nothing, but resolved to go to San Francisco, and there being no mode of transportation at hand were to commence walking, they would be sure to get to their destination sooner or later. The idea is that they who move accomplish something. They "who hesitate are lost."

Which class do you belong to, dear reader? Do not be a procrastinator, but deposit with the Phoenix at once. "Procrastination is the thief of time."

Lok out for "Talk" No. 21. It is "short but sweet."

BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at Hodgkinson's drug store.

Get Green's Special Almanac.

PIANOS ON EASY TERMS.

And at prices to suit any one. The prices range from two hundred and twenty-five dollars up—twenty-five dollars down and the balance in ten-dollar monthly installments.

These pianos are all fully guaranteed and have the latest improved action and are the style upright. No one on earth sells better pianos or better-toned pianos, or gives more value for the money than C. J. Brookins. Brookins has lived and sold pianos in Reno for thirty years. Why not buy your piano of Professor Brookins, who knows all about pianos and has made them a great study for thirty years? Call at 224 Virginia street, C. J. Brookins' store.

For the finest of domestic or imported goods call on Thyes, either over the bar or by the bottle or gallon.
